

MARCH 2024

Welcome to the March edition of the B2 Newsletter! In this issue, we'll share updates and insights showcasing our innovation and collaboration.

From new projects to product spotlights, there's something for everyone. Let's dive in and enjoy this latest installment together!

Android Terminal Development

**Solutions tailored to fit your
exact needs.**

At B2, our extensive experience developing payment applications has taught us that POS solutions have unique requirements. Our Android Terminal development services are designed not only to deliver outstanding core functionality but also to offer the flexibility of customization to meet your specific needs. Whether you require a standalone terminal application, a semi-integrated solution, or a system tailored for a particular industry, we can help.

Our expertise spans supporting all major hardware vendors, adapting to your ECR interface, and crafting personalized user interfaces. As experts in EMV and Contactless certifications and proponents of state-of-the-art automated testing techniques, we are your premier choice for payment terminal development.

Reach out to discover how we can collaborate to enhance your payment solutions.
